Medicaid Pharmacy News

Dear Pharmacies and Prescribers:

March 22, 2022

PDMP CHECK REQUIREMENTS

Per Wyoming Statute 35-7-1060, the practitioner, or his delegate, is required to check the PDMP before issuing the first controlled substance prescription and every three months thereafter as long as the controlled substance is being prescribed. Further, as of October 1, 2021, in accordance with Section 5042 of the United States SUPPORT Act, prescribers must check the PDMP for all Medicaid recipients prescribed a controlled substance before the prescription is issued. Wyoming's PDMP can be accessed at <https://worxpdmp.com>.
