

New Wyoming Medicaid Provider Portal

The Provider Portal is a powerful web-based tool for **prescribers**. The new system will allow for faster and more efficient processing of outpatient drug prior authorizations.

The Wyoming Medicaid Provider Portal provides a secure, web-based interface for providers to:

- Submit Prior Authorization (PA) Requests and upload any supplemental information needed.
- Check the status of PA requests
- Look up patient eligibility
- View patient drug history
- View the Preferred Drug List (PDL)

We encourage prescribers and office staff who submit prior authorizations to attend the following training.

**January 29th at Cheyenne Regional Medical
Center Auditorium from 1pm – 3pm.**

**RSVPs would be appreciated but not
mandatory. Please RSVP to
Melissa.Eames@wyo.gov**
