# Medicaid Pharmacy News

Dear Pharmacy:

1/9/2026

## **PULMICORT FLEXHALER UPDATE**

Effective immediately, Pulmicort Flexhaler® products have been issued new National Drug Codes (NDCs) and previously used NDCs have been discontinued by the manufacturer. The new labeler (Rubicon Holdings) does not participate in the Medicaid Drug Rebate Program (MDRP) and these products are therefore not covered by Wyoming Medicaid.

If pharmacies have stock of the previous manufacturer's product on their shelves, these NDCs can and will continue to be covered by Wyoming Medicaid until the products in circulation have been depleted. This change does not impact other preferred products such as Airduo Respiclick®, Arnuity Ellipta®, Asmanex Twisthaler® and budesonide suspension products. For more information, please consult the Preferred Drug List at [www.wymedicaid.org](http://www.wymedicaid.org).

For any questions, please call the Change Healthcare/OptumRx Pharmacy Help Desk at 877-209-1264.
