Medicaid Pharmacy News

Dear Pharmacies:

1/23/2024

UPDATED REQUIREMENTS FOR 340B CLAIMS SUBMISSION

Effective January 18, 2024, Wyoming Medicaid has updated the process used internally for invoicing 340B claims. You are receiving this notification because it has been determined that these changes may impact your claims adjudication process. To properly reimburse claims and ensure proper invoicing of these claims with the manufacturers, please submit 340B eligible claims through the POS with the following NCPDP-specific values included in the claim submission:

1. Submit the claim using the associated 340B Pharmacy NPI
2. Basis of Cost Determination field = "8"
3. Submission Clarification Code field = "20"

340B claims are required to be submitted according to the above parameters as of **February 1, 2024**. Wyoming Medicaid will continue to assist with claims submission and adjudication questions, as well as auditing functions to ensure that claims are adjudicated appropriately using the information submitted by the pharmacy.

For any questions, please call the Change Healthcare Pharmacy Help Desk at 877-209-1264.
